SUBJECT INDEX

Volume 5

Abortion
pigtail monkey, 261, 267
Abortion, bovine
bacteria, various, 138
bovine viral diarrhea virus, 91
brucellosis, 102
Corynebacterium pyogenes, 107
epizootic bovine abortion (EBA), 99
infectious bovine rhinotracheitis virus, 94
leptospirosis, 110
Listeria monocytogenes, 123
mycotic, 139
Trichomonas fetus, 150
Vibrio fetus, 128
Acrosome
chicken spermatozoa, 21
Artificial insemination
number of spermatozoa inseminated, 29
sheep, 29
storage of semen at 5°C, 29
Asynchrony
hormone levels and ovarian function, 232
Bacteria
as a cause of abortion, 138
Banded karyotype, 155
Beagle
chemical estrus inhibition, 155
estrous cycle, 155
Biopsy
trophoblast, 243
Bos indicus crossbred, 45
Bos taurus, chromosomes, 155
Bovine abortion
(See Abortion, bovine)
Bovine viral diarrhea virus, 91
Brucellosis, 102
Buffaloes, Egyptian
ovarian activity in, 69
Bull
Zebu crossbred, 45
Cadmium
effect on coyote testis, 281
effect on dog testis, 284
effect on Japanese quail testes, 285
Cattle
karyotype, 155
Chicken
spermatozoa, 21
Cholesterol, 171

Chromosome analysis, 243
Chromosomes, Bos taurus, 155
Circadian rhythm, 3
Corpus luteum
    abnormal regression, 227
    canine, 181
Coturnix, 3
Coturnix c. japonica, 3
Corynebacterium pyogenes, 107
Cow
    effect of urea on ovaries, 203
    fertility, 227
    hormone profile related to fertility, 227
    urea, effect on hormones, 213
    uterine secretions, 189
Coyote
    testis response to Cadmium, 281
Cysts
    ovarian, 227
Dexamethazone
    effect on testosterone and LH, 53
Diagnosis, bovine abortion
    (see Abortion, bovine)
Dog
    chemical estrus inhibition, 155
Dystocia
    associated with induced parturition, 289
    pigtail monkey, 271
Egyptian buffaloes, 69
Embryo transfer, 15, 243
Embryos
    sexing, 243
    chromosome analysis, 243
    surgical transfer and sexing, 243
Endometrium
    after estrus inhibition, 168
    canine, 181
Epizootic bovine abortion (EBA), 99
Estradiol benzoate, 15, 289
Estrogen
    in bitches after estrus inhibition, 170
    in canine estrous cycle, 175
    induction of parturition, 289
    infertility, relation of profile, 227
    urea, effect of feeding, 213
Estrous cycle
    Beagle, 175
    canine, 175
    estrogen profile, 175
    LDH-enzyme in uterine secretion, 189
    LDH in uterine secretion, 189
    luteinizing hormone profile, 175
    progesterone profile, 175
    urea, effect of feeding, 203

Estrus
    delayed, 227
    in the Beagle, 165
    in buffaloes, 72
    inhibition, chemical, 165
    postpartum interval, 72
    urea, effect of feeding, 203
Ewe
    induced parturition, 289
Fertility
    cow, 227
    hormone profiles, relation to, 227
    related to number of spermatozoa, 29
    urea, effect of feeding, 203
Fletcher's medium, 121
Fluorescent antibody technique, 97
Follicle
    canine, 181
Follicle stimulating hormone (FSH)
    canine, 181
Fructose
    in semen, 62
G-banding
    of chromosomes, 155
Glutamic oxalacetic transaminase (GOT), 63
Glycerol
    effect on spermatozoa enzyme, 21
    effect on utero-vaginal function, 24
GnRH, synthetic, 45
Hormone
    profiles related to infertility, 227
Human Chorionic Gonadotropin (HCG), 15
Idiogram, of Bos taurus chromosomes, 155
Induced parturition, 289
Infectious bovine rhinotracheitis virus, 94
Karyotype, 155, 243
Lambing performance
    induced parturition, 289
LDH
    in uterine secretions, 189
LDH-enzymes
    in uterine secretion, 189
Leptospirosis, 110
Libido, bulls, 45
Listeria monocytogenes, 123
Luteinizing hormone (LH)
    effect of Dexamethazone on, 53
    in bitches after estrus inhibition, 170
    in canine estrous cycle, 175
    infertility, relation of profile, 227
    urea, effect of feeding, 213

Luteinizing hormone, in bulls
after exposure to estrus cow, 45
after injection of GnRH, 45
Macaca nemestrina
menarche, age of, 261
perineal tumescence, 261
Macroscopic agglutination test
for leptospirosis, 112
Mammary gland
from bitches treated with 19-nor-steroid, 165
Menarche
pigtail monkey, 261
Metabolism
spermatozoa, 61
Microscopic agglutination test
for leptospirosis, 112, 115
Milbolerone, 166
Milk production
relation to postpartum ovulation, 78
Milking
relation to ovarian activity, 69
Mycosis, as a cause of abortion, 139
Neonatal death
pigtail monkey, 267
19-nor-steroid
for control of estrus in the bitch, 165
19-nor-testosterone derivatives, 166
Nutrition
urea, affect on ovaries, 203
urea, affect on hormones, 213
Ovaries
canine, 181, 184
function related to hormone profile, 227
in buffaloes, 69
in dogs after estrus inhibition, 165, 170
postpartum activity, 69
urea, effect of dietary on, 203
Ovulation
postpartum interval, 70
Parturition
ewe, 289
estrogen-induced, 289
Perineal tumescence
pigtail monkey, 261
Photoperiodism, 3
Pigtail monkey
menarche, age of, 261
neonatal death, 267
perineal tumescence, 261
postnatal death, 267

Postnatal death
    pigtail monkey, 267
Postpartum period
    urea, effect of feeding, 203
Postpubertal bulls, 53
Pregnant Mare Serum Gonadotropin (PMSG), 15
    batch variation, 15
    day of injection variation, 18
Primate colony, 267
Progesterone
    in canine estrous cycle, 175
    in dogs after estrus inhibition, 165, 170
    infertility, relation of profile, 227
    urea, effect of feeding, 213
Prostaglandin
    estrus synchronization, 247
Prostaglandin $F_{2\alpha}$, 15
Season
    effect on ovarian activity, 69
Semen
    bovine, 61
    chicken, 21
    storage at 5°C, 29
Seminiferous epithelium
    Cadmium, effect, 282
Sex chromosomes, 243
Sex skin
    pigtail monkey, 261
Sexing
    embryos, bovine, 243
SGOT, 171
Sheep
    artificial insemination, 29
    induced parturition, 289
Spermatozoa
    chicken, 21
    effect of testosterone propionate on livability, 61
    metabolism, 61
    Trypsin-like enzyme, 21
Stuart's medium, 120
Suckling
    relation to ovarian activity, 69
Superovulation
    bovine, 15
Testicles
    photoperiodism, 3
    Coturnix, 3
Testis
    coyote, 281
    response to Cadmium, 281

Testosterone
effect of Dexamethazone on, 53
Testosterone, in bulls
after exposure to estrus cow
after injection of GnRH, 45
Testosterone propionate
effect on spermatozoa metabolism, 61
Thyroid stimulating hormone (TSH)
canine, 181
Translocation, Robertsonian, 155
Trichomonas fetus, 150
Trophoblast
sexing from tissue of, 243
biopsy, 243
Trypsin-like enzyme
in spermatozoa, 21
Urea
effect on ovarian activity, 203
hormones, effect of feeding on, 213
Uterus, canine
condition after estrus inhibition, 165
Uterus
LDH in secretion, 189
LDH-enzymes in secretion, 189
Vibrio fetus, 128
Zebu crossbred bulls, 45

SUBJECT INDEX - ABSTRACTS
Volume 5

Adrenal cortex, 84
Antibacterial
    therapy, intrauterine, 256
Antibodies
    prostaglandin, 202
    guinea pig,202
Antibody
    pituitary, 200
Blastocyst
    rabbit, 201
Blood flow
    ovaries, 39
Boar
    epididymis, 39
Brain
    prostaglandin, 258
Bull
    genital examination, 197
    libido, 197
    semen, 197
Calcium
    relation to puerperal paresis, 37
Cannibalism, 86
Cat
    corpus luteum, 40
    estrus, 40
    ovulation, 40
    pseudopregnancy, 40
Cystic ovaries
    gonadotropin releasing hormone treatment, 198
Cesarian section
    postpartum interval after, 38
    fertility subsequent to, 38
Coitus
    cat, 40
Colchicine
    termination of pregnancy, 257
Copulation
    swine, 85
    effect on luteinizing hormone, 85
    effect of follicle stimulating hormone, 85
Corpus luteum
    activity in pseudopregnant cat, 40
    blood flow, 39
    bovine, 255
    cat, 40
    enzyme activity, 85
    luteolytic effect of prostaglandin, 255
    ovine, 200
    regression, cat, 40
    response to prostaglandin, 200

Cortisol
in fetal lamb, 84
Cow
cystic ovaries, 198
follicular cysts, 83
gonadotropin releasing hormone, 83
human chorionic releasing hormone, 83
luteinizing hormone profile, 83
luteolysis by synthetic prostaglandin, 256
oocyte fertilization, 255
ovariectomized, 83
progesterone metabolism, 197
progesterone treatment, 83
prostaglandin effect on luteolysis, 255
Prostaglandin $F_{2\alpha}$ treatment, 83
Dystocia
cesarian section, 38
fertility subsequent to, 38
neonatal death, 38
Embryo
removal, 38
Enzyme
of corpus luteum, 85
Epididymis
ram, 199
spermatozoa resorption, 39
Ergoconine, 86
Estrogen
luteinizing hormone secretion, 199
Estrogen receptor complex, 84
Estrous cycle
guinea pig, 202
Ethanol
and testosterone metabolism, 257
Ewe
corpus luteum function, 200
estrous cycle, 39
ovarian blood flow, 39
prostaglandin $F_{2\alpha}$ effect on corpus luteum, 200
Fertilization
oocytes, bovine, 255
oocytes, porcine, 255
Fertility
bull, 197
phytoestrogen effect, 41
quail, 41
Fertility diagnosis
progesterone assay, 40
Fetal lamb
cortisol, 84

Fetus
pituitary, 201
Follicle Stimulating Hormone, 201
induction of ovulation, 85
Follicular cysts, 83
Gonadotropin, 201
Gonadotropin Releasing Hormone (GnRH)
effect on follicular cysts, 83
cow, 83, 198
effect on cystic ovaries, 198
Guinea pig
estrous cycle, 202
prostaglandin autoantibodies, 202
Hamster
pheromone, 88
Heritability
hormone profile, cat, 40
puerperal paresis, 37
Horse
hysterectomy, 200
luteolysis, 200
pituitary antibody, 200
pseudopregnancy, 257
Human Chorionic Gonadotropin (HCG)
effect on follicular cysts, 83
cow, 83
Hypogonadism
related to ethanol consumption, 258
Hysterectomy
equine, 200
luteolysis, relation to, 200
Lamb, fetal
cortisol, 84
Libido
bull, 197
Liver
metabolism of testosterone, 257
Luteinizing hormone (LH)
cow, 83
estrogen induced secretion, 199
$PGF_{2\alpha}$ effect on, 83
prostaglandin $F_{2\alpha}$ production, 199
releasing factor, 259
releasing hormone, analog, 41
Luteinizing hormone profile
induced ovulation, 85
effect of copulation, 85

Luteolysis
bovine, 256
by synthetic prostaglandin, 256
effect of prostaglandin, 255
equine, 200
ovine, 200
pituitary antibody induced, 200
prostaglandin induced, 200
Magnesium
relation to puerperal paresis, 37
Mammary gland
progesterone uptake, 197
swine, 257
Metabolism
progesterone, 197
testosterone, 258
Milk fever, 37
Neonatal death
dystocia, 38
Oocytes
bovine, fertilization, 255
porcine, fertilization, 255
Ovarian artery
ewe, blood flow, 39
Ovarian follicular cysts, 83
Ovaries
cystic, 198
Oviduct
bovine, 255
porcine, 255
Ovulation
blockage, in rats, 41
induced, 85
swine, 85
rats, blockage, 41
Ovum
ovine, 256
wastage, 256
Perinatal death
dystocia, 38
Pheromone
in hamster vaginal secretion, 88
Phytoestrogens
effect on quail, 41
Pig
copulation, 85
follicle stimulating hormone, 85
luteinizing hormone, 85
mammary gland, 257
oocyte fertilization, 255

Pituitary
antibody, 200
effect of prostaglandin, 259
ovine, 84
Pituitary gland
adult, 201
fetal, 201
Postpartum
interval after cesarian section, 38
Pregnancy
rate in slaughtered cows, 37
Pregnancy diagnosis, sow
progesterone assay, 40
Pregnancy termination
by Colchicine, 257
by embryo removal, 257
by prostaglandin $F_{2\alpha}$
Progesterone
mammary gland uptake, 197
metabolism, 197
Progesterone assay
pregnancy diagnosis, 40
Progesterone exogenous
cow, 83
Progesterone profile
cat, 40
pseudopregnancy, 40
Prolactin, rat, 87
Prostaglandin
auto antibodies, 202
effect on pituitary function, 259
in bovine corpora lutea, 255
in bovine plasma, 198
in rabbit blastocysts, 201
in rat uterus, 87
libido relation to, 258
luteolytic effect, 255
luteolysis, bovine,256
metabolite, 198
Prostaglandin $F_{2\alpha}$
brain production, 199
corpus luteum blood flow, 39
effect on corpus luteum, 200
equine, 257
in ergoconine treated rats, 86
luteinizing hormone, 83
ovulation blockage, 86
termination of pseudopregnancy, 257

Puerperal paresis
heritability, 37
Quail
phytoestrogens, effect, 41
Rabbit
prostaglandin in blastocysts, 201
Radioactive microspheres, 39
Radioimmunoassay
13,14-dehydro-15-keto prostaglandin F, 198
Ram
epididymis, 199
testis, 199
Rat
field activity, 258
hormones, 87
libido, 258
metabolism, 87
ovulation, 41
pituitary, 259
prolactin, 87
prostaglandin, 87, 258, 259
uterus, 87
Releasing hormone analog
luteinizing hormone, 41
Season
ram testes, 199
Semen
bull, 197
Sheep
ova wastage, 256
pituitary, 84
Spermatozoa
resorption from epididymis, 39
Temperature
prostaglandin effect on, 258
Testis
size in relation to season, 199
Testosterone
metabolism, 257
Testosterone profile
effect of copulation, 85
Twinning rate, 38
Ultrasonic procedure for blood flow measurement, 39
Uterus
therapy, intrauterine, 256
bovine, 256
